

Unlock financial independence with **Flyback**

Flyback **Solutions** stands for solutions to move freely and independently in this new era.

What does that mean?

Safeguard fiat money, pay with **cryptocurrencies** and **gold** to evade increasing control.

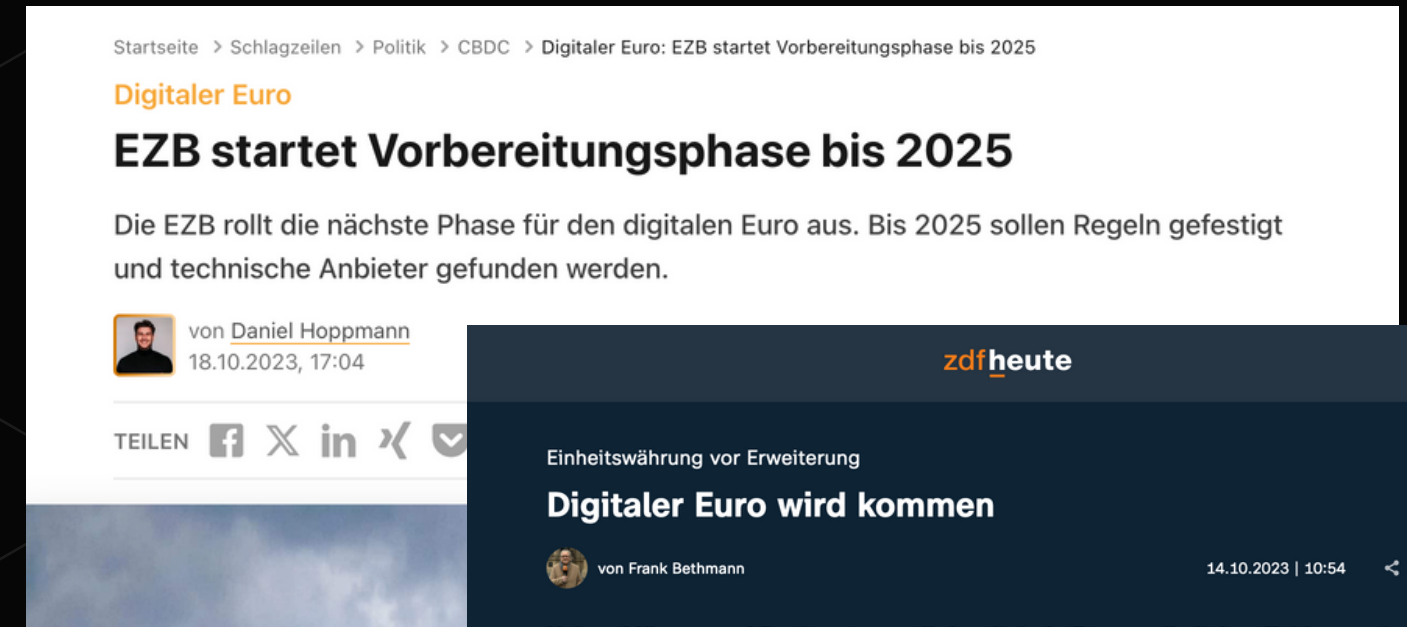

CBDCs are arriving sooner than expected

The USA with the FED, as well as the European Union with the ECB, are launching their own digital currencies, known as CBDCs.

This makes your money, your life completely transparent!

- ▶ Anyone can trace where and what you buy.
- ▶ Anyone can trace what you earn.
- ▶ ... and what you are spending.

Simply everything! Your entire life becomes transparent.

The only chance to remain free from CBDC's is to use other cryptocurrencies that are **not controlled by the state.**

Flyback Solutions is currently launching a token (\$FLYS), which is already available for purchase.

You need this token if you want to **use our solutions.**

Flyback Solutions - Our Mission

Our Mission

In times of global uncertainty, when wars and massive currency devaluation have become the norm and personal freedom is being increasingly restricted, we need a **counterpart**.

We want to bring back freedom as it existed in the past - in other words, we want to **'fly back'** to the past.

We want to offer an **alternative that builds on the characteristics of digital gold** - cryptocurrencies. Anonymity in personal spending online and offline, no restrictions on opening accounts and direct access to your own money without having to worry about bank runs when the next bank goes bust.

Flyback Solutions - Our Vision

There are approximately 500 million cryptocurrency wallet owners, which means 500 million problems we can solve together.

If we reach just 1% market share, that would be 5 million customers buying \$FLYS for \$1,000 each. **That would result in a \$5 billion investment in \$FLYS tokens.**

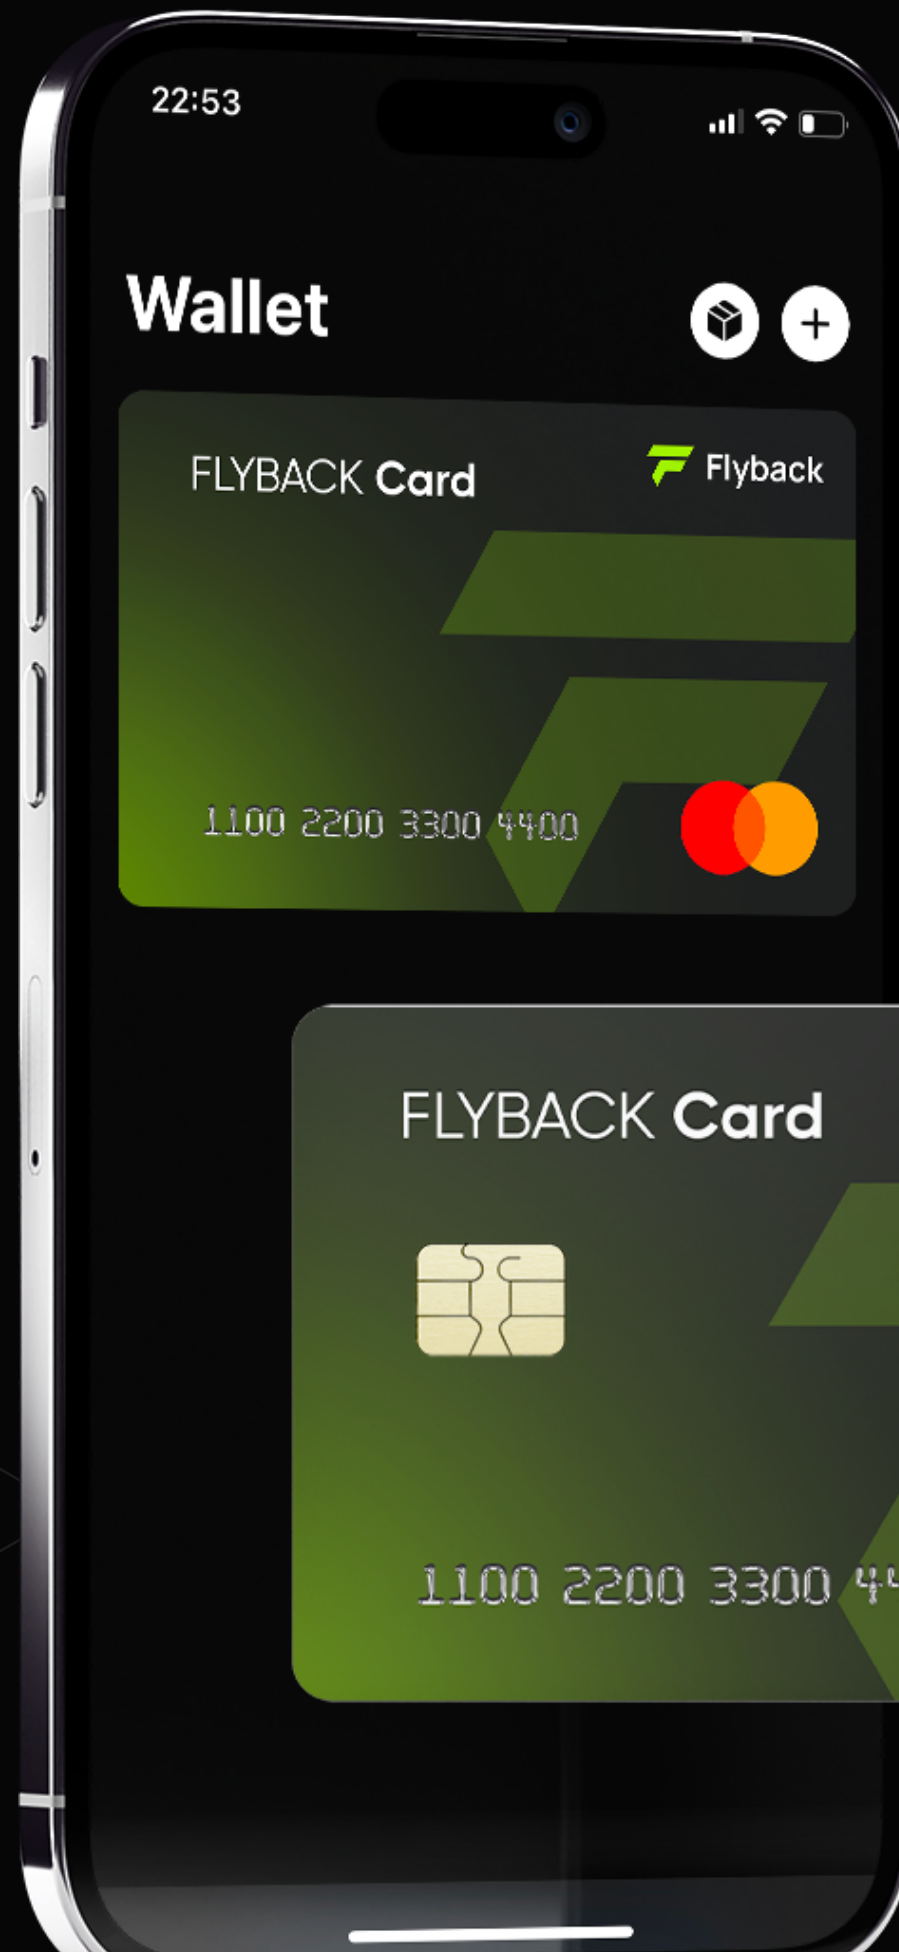

To achieve this, FLYBACK SOLUTIONS is investing up to 30% in crypto commissions back into its community. That would be a payout of 1.5 billion in crypto. Sounds incredible, doesn't it?

Flyback Solutions - Our Vision

If only 0.1% market share is achieved, with 500,000 customers, that would still be **\$150 million** paid out in cryptocurrencies as commissions.

The **\$FLYS token would then fly to the moon** and beyond!

A debit card from **the future.**

Flyback Gold Securities

Started at presale level 5!

In addition to our own products, we want to give you another security. A security that has been used as currency for several thousand years and has true value: **Gold**.

For every \$1,000 that you exchange for \$FLYS tokens from level upwards, you will receive 1g of gold in addition to the tokens. Your gold will be sent to an address of your choice after completing the level. So you don't rely on a piece of paper certifying that you own it, but hold it in your hands shortly after your deposit.

Buy \$1,000 worth of \$FLYS tokens and receive **1g of gold!**

Flyback Treasury

At least a quarter of all presales transactions flow into Treasury. The addresses of the treasury are made public at a later date. Liquidity is built up from this treasury for the trading pairs on PancakeSwap, marketing and events are paid for and many buybacks are made. The funds are only used when the presale is over.

Presale Backoffice

The screenshot shows the Flyback Presale Backoffice dashboard. At the top, there's a navigation bar with the Flyback logo, a 'Telegram' button, and a user profile for 'John Green'. The main dashboard area is titled 'Main Dashboard' and includes a greeting 'Good Evening, John!' and the user's Flyback-ID: 20. Below this, there are three summary cards: 'Total Members' (17,347), 'Total Earnings' (625,722.53\$), and 'Total Commissions' (9,923.00\$). A 'Countdown to next Stage' widget shows 6 days, 3 hours, 55 minutes, and 45 seconds. The 'Buy \$FLYS with USDT' section features a swap interface with input fields for 'You send' (1,000) and 'You get' (10,000), and a 'Swap' button. A 'Your Total Balance' section displays 'Your \$FLYS Balance' (763,564.00 \$FLYS), 'Your USDT Balance' (12,652.00 USDT), and 'Your Commission Balance in \$' (12,652.00 \$). A 'Current Presale Level Info' section shows 'Level 1/10' with a 64.3% progress indicator, a price of \$0.01, and a total of 64,370,000 \$FLYS already sold. A table below lists 'All Presale Levels' from Level 1 (\$0.01) to Level 6 (\$0.06). A yellow callout box at the bottom left says 'Make sure to get some \$FLYS before they are completely sold out!'.

Live since 11/16/2023

\$FLYS presale started at 16th of November 2023. Since then we reached a lot of milestones.

Invite only!

You are **only authorized** to register in the backoffice and buy \$FLYS before official launch with a **Flyback Team Link**.

Flyback Pools and Streamline

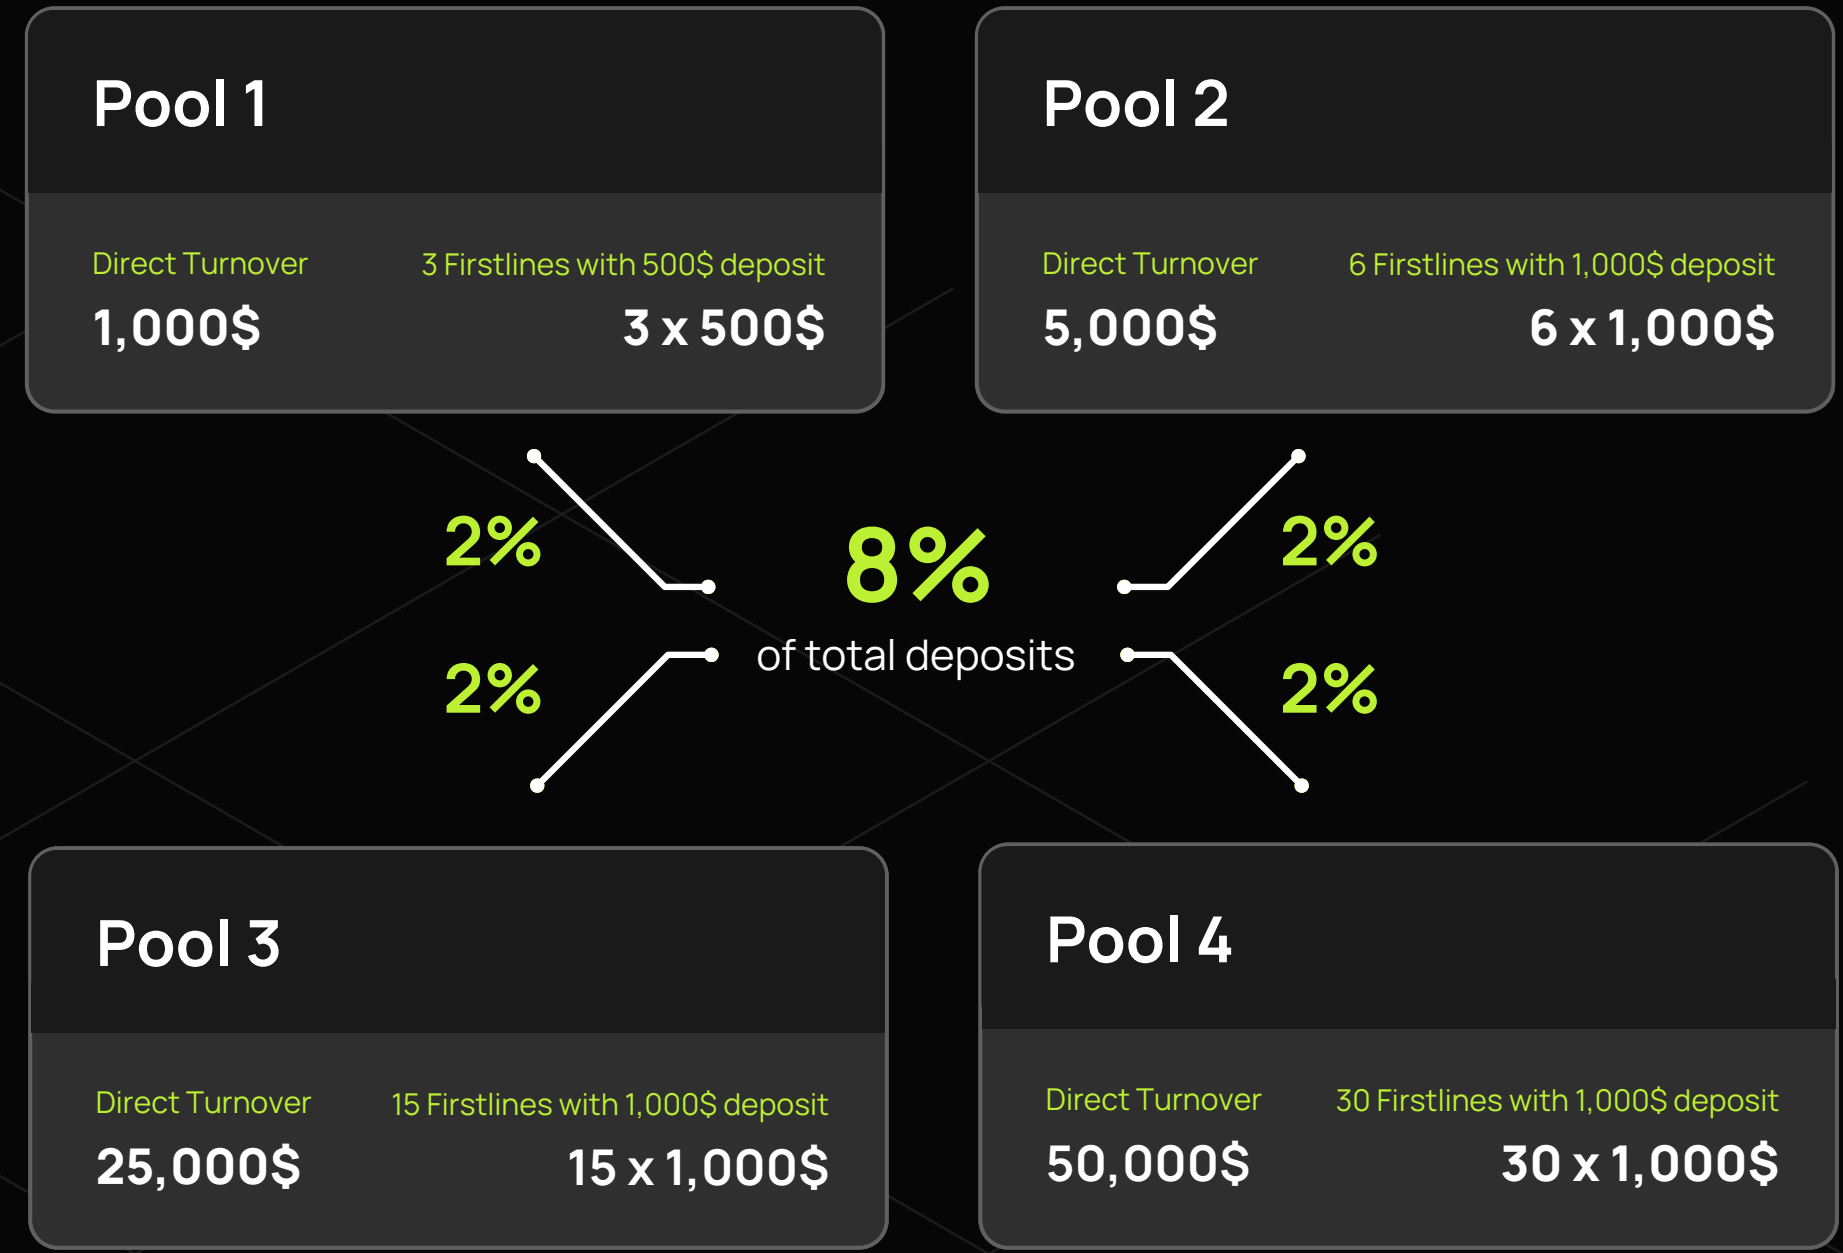

Earn money with Flyback Pools

A total of 8% of all deposits from the presale flow into the flyback pools. This 8% is distributed equally among all pools. There are certain requirements for each pool.

In order to qualify for a pool, you and your firstline have to generate a certain turnover.

Find the exact requirements in the graphic on the right.

Pool 1 • Qualified

Pool Members 22,937	Your total earnings 1,937.42\$
Your daily earnings 1,937.42\$	Member earnings 13,937.42\$

Requirements to participate in this pool:

- Direct Turnover **100 \$ / 1,000 \$**
- 3 Firstlines with 500\$ direct turnover each **3 x 500 \$ / 3 x 500 \$**

Flyback Pools and Streamline

How the pool distributions are allocated among the members

The Flyback pools work according to the streamline principle. This means that you benefit from \$FLYS purchases of all Flyback members after you.

In the example on the right, this would mean:

Fair Launch (Token Vesting)

How we ensure project stability after end of presale

To ensure project stability and a price increase of the \$FLYS token after the launch, we have developed a **Fair Launch (Token Vesting) concept**.

After launch, you can claim your tokens in the following ways:

 **Claim 100% of your tokens directly** for a 10% Fair Launch fee

 **Claim 50% of your tokens directly** for a 5% Fair Launch fee

 **Claim 1% of your tokens** pre day without any fee

After 100 days at the latest, every member will have their \$FLYS tokens.

100% of the funds from buyouts are invested in buybacks of the token.

\$FLYS Taxes

Token Burn

How we reduce the token supply and make the token more valuable

To reduce the token supply and thus make the token inherently more valuable, Flyback has an attractive token burn concept. Within the first two years after launch, 20% of the max supply is said to have already been burned.

Token Burn Goal

200,000,000 \$FLYS

in 2 years
